

EP POWERON 0W 20

Performance: API SN Performance

Description: EURON PLUS POWERON 0W-20 is a high-performance premium quality synthetic petrol engine oil for New-Gen passenger cars. It is designed with advanced additive technology to benefit lessen the engine resistance and provide ultra-edge protection under demanding daily traffic conditions. Low viscosity and advanced additive technology of the EP lubricants delivers excellent sludge protection, keeps engine hygienic and helps to improve engine performance. Low vanishing formulation decreases oil consumptions.

Application: EURON PLUS POWERON 0W-20 is suitable for all New-Gen BSVI petrol and hybrid passenger cars of Maruti Suzuki, TATA, Hyundai, Honda, Toyota, Mahindra, Citron, Ford, General Motors etc. where SAE 0W-20 oil is recommended. 0W-20 is also suitable for vehicles running with ethanol blended petrol (up to E85).

Benefits:

- Superior Fuel Economy & Wear Protection
- Excellent Thermo-Oxidative Permanency
- Delivers superior control of sludge & maintains engine cleanliness
- Synthetic oil molecules minimize evaporation loss and reduces oil consumption
- Safeguards smooth and softer drive of the engine under all climatic conditions

Characteristics:

Test Parameter	Typical Value
Grade	SAE 0W-20
Density @ 15 C, kg/l, ASTM D4052	0.845
Phosphorus, mass%, ASTM D4951	0.08
Flash Point, Cleveland Open Cup, °C, ASTM D92	235
Kinematic Viscosity @ 100 C, mm ² /s, ASTM D445	8.4
Kinematic Viscosity @ 40 C, mm ² /s, ASTM D445	45
Pour Point, °C, ASTM D97	-48
Viscosity Index, ASTM D2270	162
